

Relations

p_{eq}, p_c, K
branches

Residual

R_u, R_p, R_s
units/signs

Matrix

J_{phys}
 J_{num} / raw

State

committed
trial/diagnostic

Host

RHS/AMATRX
accept/reject

Matrix entry

paired with residual?
physical or numerical?

Changed state

who owns/commits it?
can rejection restore it?

Passing derivative

which branch/direction?
does it imply a basin?

Reverse audit prevents matrix, state and convergence claims from being conflated.
